ORDERING INFORMATION:

CONDITION: Unless otherwise noted, an item is in the original binding (as issued), octavo or 12mo in size, and in what is generally accepted as very good second-hand condition. All major defects are noted (although ownership marks such as signatures and bookplates may not be noted unless they substantially add to or detract from the book’s interest). The edition or printing is noted when known or important; no citation of edition usually means that the item is a first printing or first edition. “Wrappers” denotes an item with paper covers.

HOW TO ORDER: All items are subject to prior sale, and as I usually have only one copy in stock of each, I strongly suggest a speedy placement of your order. Feel free to order at any time, day or night, via voice mail, or email. Please Note: I no longer have an 800-number, nor a fax number.

TERMS OF SALE: ANY ITEM IS FULLY RETURNABLE FOR ANY REASON WITHIN 7 DAYS OF RECEIPT. I would appreciate it, however, if you could notify me immediately of your return, as it is likely that I will have received a duplicate order.

PAYMENT: CWO. Payment can be made by check (in U.S. funds and drawn on a U.S. bank), or money order. Institutions will be invoiced, and can be billed to fit their ordering or fiscal year requirements. California residents who do not have a resale tax certificate will be charged sales tax. Discounts to the trade are offered on a reciprocal basis, and only on invoices paid within 30 days of the invoice date.

SHIPPING: Shipping charges are extra. Within the U.S. I prefer to ship via Priority Mail, but I will be glad to accommodate your preferences, including UPS services or Federal Express. Shipments outside the U.S. will be at cost.

Shipping within the U.S. $5.00 first item, $1.00 each additional item.

THIS CATALOGUE (142) is my current entry to a series of catalogues that I have compiled which have focused on books and ephemera relating to World’s Fairs and International Expositions. The pedigree began with my Special List 91-A issued in 1991 (under the Schoyer’s Books imprint) followed by a Schoyer’s Books Catalogue No. 27 (1992), and then more recently by Catalogues 123, 126, 132, and 138 issued under my personal moniker. ¶ Travels in Europe in recent years have opened up the field of foreign expositions to me, especially the various Paris and Barcelona expos. And I am fortunate to live in an area that also hosted three international expositions (1894, 1915, 1939-40). I plan to continue exploring this topic—and acquiring material and issuing the occasional catalogue, available in both print and pdf versions. ¶ Regarding the cataloguing style herein, in my search for bibliographical information [such as author or publication date], and for signs of institutional scarcity [or abundance], I checked most titles against the OCLC [World Cat.], as well as an occasional foreign catalogue, and specific institutional catalogues. However, I understand that (1) not all institutions have their catalogues listed therein and (2) much ephemeral material of the kind offered here simply has not been catalogued or completely accessioned. Therefore, “Not located in OCLC” means that I performed a search, usually under a few different parameters [e.g., publisher/publisher location], but did not turn up any holdings. It does not necessarily mean that a copy is not lurking in some folder or phase box—or is, in fact, listed on OCLC. All items, of course, are sent on approval, which allows you to inspect items against those of similar nature or title. —MS

Four pages folded (p.4 blank, but used for mailing, with address and partial cancellation present); partially trimmed, apparently, at top. § US Chairman presents a “summary of information on the most important matters requiring the attention of State Committees, and of those who intend to become exhibitors,” with “Regulations by the Commissioners in London” on p.2. 5. [1853 New York] Uncle George. Dear Molly… New York City, 2 August, 1853. Original four-page handwritten letter, on bifolium sheet featuring large (top third) color lithograph of the Crystal Palace for the Exhibition of the Industry of All Nations: printed by Charles Magnus. Small tears at folds, repaired with archival paper tape. § Chatty letter from a New Hampshire man then living in New York to his niece back home. “That’s a pretty picture, isn’t it?” he begins, referring to the Magnus litho of the Palace. “It is a very correct one too, representing perfectly the form and the proportions of the Palace.” George comments on the Exhibition as well as life in the City: “There is such a crowd of people going in all directions, and the streets are so full of carriages of every kind imaginable. The rich and the poor have to get pretty near together sometimes. In the streets, you will meet ladies and gentlemen dressed with all the style and expense you can think of, and right at their elbow may be the most miserable beggar, asking them for charity.” 150.00

7. [1867 Barcelona] Academia de Bellas Artes. 8. [1867 Paris] Banks, Hon. Nathaniel P. Speech upon the Representation of the United States at the Exhibition of the World’s Industry, Paris, 1867. Delivered in the House of Representatives, March 14, 1866. Washington, DC: Mansfield & Martin, 1866. 24pp, self-wrappers, stitched. § Enthusiastic and long-winded speech relating to the question on the floor regarding the appropriation of sufficient funds for US involvement, which Banks enthusiastically supported—especially as he believed the representation of “American civilization in this grand Exposition… will be money very profitably expended.” "
goes on to provide a good review of the previous international expositions (especially London 1851 and Hamburg 1863) and an argument in favor of government, not private nor commercial support to such an event. A year after the Civil War’s bloody conclusion, Banks (from Mass.) trumpeted here, “The strength of our civilization is more in ideas than in force. The lesson the old world is to learn of us and which we ought better to comprehend ourselves is, that in the wise economy of nations, ideas are better than blows, and brains better than blood.” Oddly, opposition to Banks’ plea for appropriations to the Paris Exposition came from Elihu B. Washburne (R: IL) who from 1869 to 1877 would serve so admirably as the US Minister to… France. 60.00

9.  [1867 Paris] Cowdin, Elliot C. The Paris Universal Exhibition of 1867. Remarks in the Chamber of Commerce of New York, Friday, January 12, 1866. 8pp, self-wrappers, some light soiling on last leaf, with light vertical crease. 35.00

11.  [1873 Louisville] Louisville Industrial Exhibition. Second Grand National Exposition of Arts, Inventions, Manufacturers and Products will be held at Louisville, commencing Tuesday September 24 1873 and continuing until October 11th 1873. Louisville: Louisville Steam Lith. Co., 1873. ¶ Wonderful decorative typographical treat, with a center litho view of the Grand Exhibition Hall—lithographed in green ink. Printed on the verso of a letter sheet (here for Harvey & Keith, wholesale dealers in boots and shoes). Letter portion used and item mailed, as evident from light fold creases. This local fair offered exhibitors an incredible bargain: “No charge made for space.” Not located in OCLC. 350.00

[Philadelphia? 1876.] ¶ Single-sided broadside flyer, describing a painting by the “celebrated Spanish artist” who perished at sea while on his way from Brazil to Philadelphia to exhibit this painting. 13.  [1876 Philadelphia] Centennial Bank of Virginia [Illinois]. Original unused stock certificate, 8 x 14 inches, featuring in the center, a wood-engraving vignette of the Exhibition’s main building. 14.  [1876 Philadelphia] Centennial Loan Exhibition. Catalogue. Philadelphia: Lippincott, 1875. 39pp + printed wrappers. ¶ Good example of that unusual 19th century fund-raiser: the loan exhibition. Here, local swells donate a jumble of artifacts, knick-knacks, art, furniture, and the material detritus of domestic life for viewing at 218 West Rittenhouse Square—home of Craig Lippincott, owner of the publishing firm—with proceeds from the door going to the Centennial. This copy apparently belonged to Mrs. Samuel Chew, as her name is checked as well as her contribution of a miniature painting for the “curiosities” section and a painting of Lafayette at the “Chew House, Germantown, 1825.” OCLC locates three holdings (Frick, Lib. Co. of Phila., Nebraska). 65.00

[Philadelphia, 1876.] Double-sided printed broadside (12 x 18.5 inches), with an essay about the Ephrata Press—the same press upon which the Declaration of Independence was printed—and the same press which printed this broadside. The text includes a brief bibliography of works printed on said Press. The Printing Press was loaned by its owners, the Historical Society of Pennsylvania, to the Philadelphia printing-equipment firm of Rex & Bockius, who exhibited the old Press alongside modern machinery. The inking of this broadside is not quite ideal—which may be a result of the old Press. Text of the Declaration, with facsimile signatures of the Signers, printed on verso. A few pin holes; tender across the horizontal fold. 75.00

27. [1876 Philadelphia] United States Centennial Commission. The International Exhibition of 1876, A National Celebration. What Has Already Been Done By Congress and the Executive. 29. [1878 Paris] [Commemorative ribbon] Tilt & Son. La France a l'Amerique. La Liberte éclairant le Monde. Souvenir de l’Exposition Universelle de Paris 1898. (Patterson, NJ: B.B. Tilt & Son, 1878). 2 1/8 x 10 1.4 inches. Machine-woven silk ribbon, printed in red, blues and grays on white; featuring Bartholdi’s Statue of Liberty flanked by the American and French flags. “At the Centennial Exposition in 1876, the Phoenix Manufacturing Company [i.e., Tilt & Son] had a book mark loom, a ribbon loom, and a broad silk loom for handkerchiefs, at work in the main building, and though frequently warned by other silk manufacturers that it would be a fool-hardy experiment, so great was the success of the undertaking that with the exception of the railroad and the glass-blowing industry, the company's receipts for the sale of its products were the largest of any single enterprise, and aggregated the handsome sum of over $140,000. Over three hundred thousand articles were sold during the Exposition, consisting of bookmarks, handkerchiefs, scarfs, ribbons, etc. The distribution of these beautiful silk products broadcast over the entire country had a very desirable effect, and did more to acquaint the public at large with the fact that America was an important producer of silk manufactured goods, than would have been known in twenty years in the ordinary course of industrial progress. Again, in 1878, the company decided to heard the lion in his den, and they transported to the Paris Exposition looms of their own manufacture and wove their beautiful goods in the presence of the greatest silk manufacturers of Europe [my italics]. Here, too, as at Philadelphia, the company received awards for the excellence of their products, and, above all, the proud satisfaction of having held their own against the silk manufacturers of the world”—Quarter-century’s progress of New Jersey’s leading manufacturing centres, 1887 (p.197). 200.00

30. [1878 Paris] Exposition Universelle de 1878. Le Palais du Trocadéro. Le Cateau de Chaillot. La Nouveau Palais. Les dix-huit mois travaux. Renseignements techniques. 38 gravures et 4 plans. Tailpiece on p.[iii] defaced, otherwise a good copy, all edges gilt, and in contemporary full morocco with stamped spine; some stains on covers. Includes a detailed account, with costs, on the construction of the Trocadero. OCLC locates three US holdings. 100.00

By this time, Giffard’s balloon was the largest ever built, measuring 36 meters in diameter, and with an unloaded weight of over 13 tons. The observation car could accommodate 50 people, and during the Exposition, almost 35,000 people rode in this 600-meter ascent to see the “Panorama de Paris.” Fine selection of images, including many “behind-the-scenes” stages in preparing the large balloon. One of those exposition novelties that also had scientific usefulness.

The Japanese Commissioner called his country's appearance at the 1940 Exposition, "an omen of a future guarantee of lasting friendship between the United States and Japan." The Exposition's President, Marshall Dill, believed that the "pleasant, sympathetic and cooperative association" between the two countries "will be continued indefinitely." The piece just drips with irony. Very uncommon—my first copy. I have not been able to locate a copy of this apparently rare booklet.
